Not Me

This Mortal Coil

It may be as you say.
I'll admit.
But you don't sound convinced.
Between the surface you and the surface me.
You didn't touch me.
It may be as well that,
I didn't see the point.
You didn't touch me
I suppose it's just hollow.
No idea- no spark
When I thought that in order to survive.
You need to touch me.
All of the me's.
