

No Interruptions

Donell Jones

You know what I want
You know what I need
Come on and do me right, tonight
You know what I want
You know what I need
Come on and do me right, tonight
Lay your body down
Let me take control of you
Do the things that lovers do, tonight
You better be prepared to stay
'Cuz you ain't leavin' till the next day
It's gonna be non-stop lovin' all night
I'll make you feel all right
You know what I wanna do tonight, work your body inside
I don't want no interruptions
(Baby, there will no interruptions, oh yeah)
You know what I wanna do tonight, work your body inside
I don't want no interruptions
(You know that I wanna make you feel real good)
(Baby, inside, baby, inside)
You know what I want
You know what I need
Come on and do me right, tonight
(Girl there's so many things I wanna do to you)
You know what I want
You know what I need
Come on and do me right, tonight
Baby, don't be scared
Let me kiss your body everywhere
Pleasure is the thing I wanna give to you
Close your eyes and get ready
It's gonna be non-stop lovin' all night
I'll make you feel all right
You know what I wanna do tonight, work your body inside
I don't want no interruptions
(Everything's gonna be alright just let me)
You know what I wanna do tonight, work your body inside
(C'mon, c'mon)
I don't want no interruptions

(I wanna make you feel real good)
(Baby, inside, baby, inside)
 You know what I want
 You know what I need
 Come on and do me right, tonight
(Girl there's so many things I wanna do to you)
 You know what I want
 You know what I need
 Come on and do me right, tonight
 You know what I want
 You know what I need
 Come on and do me right, tonight
 You know what I want
 You know what I need
 Come on and do me right, tonight
