

# Just Go

## Staind

I'm kinda numb  
It's so distorted  
You left me here with this damage that you've caused  
My tortured faces  
I've fucked up places  
In my memories none of them I've lost but[Chorus]  
I haven't been here long enough to know  
Every time I feel this I just lose control  
Such a cancer on the face of everything that's beautiful  
I wish that this would just go go.It's kinda sick  
I feel so dirty  
I'm kinda tragic kinda insecure  
But I know that I'm the only  
One that can fix whatever's wrong I'm sure, but[Chorus]  
I haven't been here long enough to know  
Every time I feel this I just lose control  
Such a cancer on the face of everything that's beautiful  
I wish that this would just go, go.I feel so alone  
From all I've become  
I'll take you down  
I'll feel so down  
I'm water while you drown  
You're lifted while I'm down  
I'm cancer in your womb  
I'm the needle in your spoon, but[Chorus]  
I haven't been here long enough to know  
Every time I feel this I just lose control  
Such a cancer on the face of everything that's beautiful  
I wish that this would just go, go.Just [Repeat x2]  
Just go  
GoAll these fucking (lies)[Repeat x3]  
All your fucking (lies) [Repeat x3]
