

Sean Price (ft. Illa Noise)

Heltah Skeltah

Chorus:I'm not sure anymore more
Who is knocking at my door door
All the people that I knew
Acted funny when big ruck got some loot
But they can't see b, let my parabellum fly fly
Cause I be God decipher devine vine
And a nigga can't test me an' mine mine
If you wanna come feel it, nigga come but twice[ruck]
Some say sean price is, nice-is on mic devices
Pack more power which make me more mightier than isis
Try this, that's when the ruck shakes the rictor
Inflictsta of pain my aim is to rip ya
Picture you tryin to break through my path
My eight blasts all you fuckin snakes in the grass
Went to hell with angel dust,plus I bust the devils lungs
With lyrics that come from tip of the tongue now you sprung
Sean sparks like john stark in the fourth quarter
Oughta meet my peeps, deep like the torah
Unforgettable like nat king, bat swings
Louieville chill because my motherfucking slap stings
This track brings, the average career to a halt
It ins't my fault you fell victim to my verbal assault
If I had dollars for every nigga who dared to battle me on microphones,
I'd fuck around and be a millionaire[illa noyz]
Chump starts it
From the dark resubmerge,
I splurge on herbs with verbs and the usage of my words
Them beats is swollen off of trees and colon
Then, lyrical functions
I flow like trains through broadway junctions
See punks get bent on constant
Consistently
When d-r-u-g blesses them s-t-c
Gods when black don't slack
Never cut slack
They been back to the wack
Snatch off like jack
Shit is, actual and factual
That my mental might blast fools, it reacts like a gun tool

Mental releases peices of no,
Makin yo brains blow
Got pros that froze like sub-zero and flows
I jams like the master shoot my lyrics like j
The emcee's run from my house I don't play
On that days to display dismay blow away
To play movie celebrities you done away like fayChorus[ruck]
Word is bon jovi, niggas don't know me
Hoes blow me show me affection for constant erection
My direction is pistols pointed at niggas on bristol
Who thought it was fun to pull guns and issue my dismissal
But you can't handle this,
I get scandalous when cannabis enters my system which makes me
More odd than tony randal bitch
Due to circumstances and lyrical advances
'nother man die, why, cause of my verbal enhancements
Transmit lyrics over my mental highway
I say what I wanna, smoke marijuana
Gonna hit you with a verse so nigga nurse your fuckin wounds
Boom in my system keep me in time with tuneChorus
