Killing A Classic

Drop Dead, Gorgeous

Same old show
Different town
Heaven knows what you've been doing all night long,
Are you having trouble sleeping on the run?
There's no doubt in my mind
I'll take my time
Playing with the hearts of everyone I touch
Of everyone I touch
I'll take your heart, string it with the rest
And Hang it from my neck.
Over and over again
How can I forget?
Forget you're timeless
Are you having trouble sleeping on the run?

Now it's a show, so lose those clothes
Fake a smile take your time baby
You've got nothing to lose, so set the mood
Break a leg, Take your time baby
Take your time
You got me right where you want me
Naw take your time
Set the mood baby
Now take a bow
Are you having trouble sleeping on the run?
I'll take my time
Playing with the hearts of everyone I touch
Of everyone I touch
I'll take your heart, string it with the rest
And hang it from my neck
Hang it from my neck
