

# Silver Rocket

## Sonic Youth

Snake in it jack into the wall  
TV amp on fire blowin' in the hall  
Gun your sled close your peeping toms  
Turbo organizer crankin' on the knob You got it, you ride the silver rocket  
I can't stop it, a burnin' hole in your pocket Well hit the power psycho helmets on  
You got to splice your halo take it to the moon  
Lymphoid clamor fueling up the hammer  
You got to fake out the robot and pulse up the zoom You got it, you ride the silver rocket  
I can't stop it, a burnin' hole in your pocket I can't forget the flashing, can't forget the smashing  
The sending and the bending, the ampisphere re-entry  
You gotta have the time got a letter in your mind  
Gotta heart injection that you got yourself a line You got it you ride the silver rocket  
I can't stop it, a burnin' hole in your pocket
