Control

Winslow

The way that your body moves
It feels so right
The shake of your hips the
The taste of your lips drive me wild
Sweat begins to beat
Dancing in the sheets
Start to take over, find yourself in the leadTake control, take control
Just lose yourself for a minute, youll find you won't regret it
Just take control take control
Throw away your inhibitions and find yourself in me.The way that your body grooves feels so right
You got me dancing up all night
Fast then slow, away you go, start to lose your mind!
Take control, take control
Just lose yourself for a minute, youll find you won't regret it
Just take control take control
Throw away your inhibitions and find yourself in me.
Take control, take control
Just lose yourself for a minute, youll find you won't regret it
Just take control take control
Throw away your inhibitions and find yourself in me.
