

# Control

## Winslow

The way that your body moves

It feels so right

The shake of your hips the

The taste of your lips drive me wild

Sweat begins to beat

Dancing in the sheets

Start to take over, find yourself in the leadTake control, take control

Just lose yourself for a minute, youll find you won't regret it

Just take control take control

Throw away your inhibitions and find yourself in me.The way that your body grooves feels so right

You got me dancing up all night

Fast then slow, away you go, start to lose your mind!

Take control, take control

Just lose yourself for a minute, youll find you won't regret it

Just take control take control

Throw away your inhibitions and find yourself in me.

Take control, take control

Just lose yourself for a minute, youll find you won't regret it

Just take control take control

Throw away your inhibitions and find yourself in me.
