## Caves

## **Jack's Mannequin**

I'm caught somewhere in between

Alive and living a dream

No peace, just clicking machines

In the quiet of compazine

The walls caved in on meAnd she sings my bird dressed in white

And she stings my arm in the night

I lay still, still I'm ready to fight

Have my lungs but you can't take my sight

The walls caved in tonightAnd out here I watch the sun circle the earth

The marrows collide in rebirth

In God's glory praise

The spirit calls out from the caves

The walls fell and there I lay savedThe walls are caving in

As far as I can see

The walls are caving in

The doors got locked for sure

There's no one here but meBeat my body like a rag doll

You stuck the needles in my hip

Said, "We're not gonna lie

Son, you just might die

Get you on that morphine drip, drip"The walls are caving in

As far as I can see

The walls are caving in

The doors got locked for sure

There's no one here but meI fought a war to walk a gang plank

Into a life I left behind

Windows leading to the past

Think it's time I broke some glass

Get this history off my mind, yeahAnd what if we were married forever

Like the past never happened

And time did not exist for us at allI think we'd still be traveling together

Through all kinds of weather

Everything's a piece of everyoneAs far as I can see

Walls are caving in

Doors got locked for sure

But I see these doors have keysWalls are caving in

As far as I can see

The walls are caving in

Doors got locked for sure

There's no one here but me, ohThere's no one here but me
No one here but me, yeah
There's no one here but me
No one here but me
