All the time watchin' you smellin' good
Walkin' by, can I get a hey or a hi
Baby, I wanna know your name
Second your game, and third you're independent
And you're out here doin' your thang
(Gone rock on with ya bad self, yo the bizness with your bad self)
Wanna let you know that if you available let me know
So we can holla and I can take this thing to the next level, yeah
Dip out with me you're VIP, sexy, baby
I wanna check you out, I show you what the hell I'm all about
Baby, don't hold back
Can I body bump you like that?
I like the way them cards is stacked
Movin' it front to back
Baby, don't hold back
Got me open just like that
I'm feelin' how you're shakin' that
Movin' it front to back
You at my spot now, relax and let your hair down
Candlelight and Cristal, kick back while I lay it down
Ain't no need to rush the vibe just let it ride
'Cause we got more plenty nights to put this thing in flight
But if you really wanna get it on just let me know
'Cause I got sexual healin' and a love TKO
We can get between the sheets and we'll turn up the heat
As I kiss all over your body you will come back for me, yeah yeah
Baby, don't hold back

Can I body bump you like that?
I like the way them cards is stacked
Movin' it front to back
Baby, don't hold back
Got me open just like that
I'm feelin' how you're shakin' that
Movin' it front to back
Yeah, don't front you no you got me open
Add motion controlling my emotion
Provoking a nigga on hard
If you don't wanna finish this baby don't even start
Make me wanna take you shopping the way you get me brick hard
Like some two thousand rims, you flickin' hard
Can you shake it like that for real, for real?
Can you bounce it like that for real, for real?
You the business like stock exchange
The way you pop that thang you proper with thangs
The reason why a nigga keep a pen on 'em
Don't care if chicken stealing his girlfriend on him
Come roll with the stars, let adrenalin' flow through ya blood
Like ya really holdin' my drug
When I'm blowin' them slugs [Incomprehensible]
Baby we can, ah, like I'm holdin' you up
Baby, don't hold back
Can I body bump you like that?
I like the way them cards is stacked
Movin' it front to back
Baby, don't hold back
Got me open just like that
I'm feelin' how you're shakin' that
Movin' it front to back
Baby, don't hold back
Can I body bump you like that?
I like the way them cards is stacked
Movin' it front to back
Baby, don't hold back
Got me open just like that
I'm feelin' how you're shakin' that
Movin' it front to back
Baby, don't hold back
Can I body bump you like that?
I like the way them cards is stacked
Movin' it front to back
Baby, don't hold back
Got me open just like that

I'm feelin' how you're shakin' that
