

# Huff + Puff

## Just a Band

La la la la x8

Uuu uuuu x6

We're gonna huff and puff and blow the house down

Tunacome na mastyles hazijaonekana aah

Chukua dakika kama tano uite mazima moto

Ju tumeshika nare

Wakichelewa watapata tu ni moshi imebaki

Ju maji haitoshi kuzima hii beat so smooth

Oh so nice play it twice, twice, twiceHave a good time

I am ready to just go

You gotta give me something

And I'll give you something back

I'm ready to just go

You gotta give me something

And I'll give me something backGive me five; it's good to be alive

The sky seems so far away

Hope you know that we've been to the moon and back

Be sure that nothing's gonna hold us back

Take it easy, msee shika ndizi

Yay tumechizi, wacha nitulize

Nimejaa points kama porcupine

I need to keep my mind occupiedI'm ready to just go

You gotta give me something

And I'll give you something back

I'm ready to just go

You gotta give me something

And I'll give me something back
