Shapes of Insanity

Skyfire

[Music: Edlund/Hanner/Jonsson / Lyrics: Sjogren]Reach out and talk to me
We're heading towards unexplored lands
Never to look back
At this world of deceitSearching for an answer
When freedom is forever gone
We will bring back life
To the lands of despairAll alone
True in soul
The world arises from the call
Chaotic spirits
In control
The life you knew is soon to fallWhere is your god, once above all
You cannot trust him anymore
Fools of the living
living a lie of the deadWasted lives and endless pain
Falling reigns is what I see
Earth will tremble and remain
Sharing thoughts when all is freeMindless patterns, shapes of insanity
Leading your way
Self destruction and genocide
Thoughts beyond controlSearching for an answer
When freedom is forever gone
We will bring back life
To the lands of despairAll alone
True in soul
The world arises from the call
Chaotic spirits
In control
The life you knew is soon to fallReach out and talk to me
We're heading towards unexplored lands
Never to look back
At this world of deceitSearching for an answer
When freedom is forever gone
We will bring back life
To the lands of despairAll alone
True in soul
The world arises from the call
Chaotic spirits
In control

The life you knew is soon to fall
