

# We Will Meet Again

## Vast

Where have you gone  
My love my friend  
Somewhere without the rain  
I feel afraid now, I feel alone  
Will we meet again  
Can you recall what we once knew  
Somewhere without the pain  
I feel afraid now, but not alone  
We will meet again

I can't hear your voice  
But you know I feel your soul  
I can't hear your voice  
But you know I feel your soul  
Where have you gone  
My love my friend  
Somewhere without any pain  
I'm not afraid now I'm not alone  
We will meet again
