Where Did You Go

Greeley Estates

Why is it when things change
So quickly you forget
What matters and why we
Why we even started thisI know that people change
But we never expected this
Success is all you see now
All you see nowWhere did you go we thought we knew you
So much for that anymore
Don't come running back to us when
You're left with nothingWe let you in our lives
Times change and so did you
Success is all you see
When we used to count on youSo did you forget who
Who got you where you are
What happened to you
What happened to you
Success is all you see now
All you see nowWhere did you go we thought we knew you
So much for that anymore
Don't come running back to us when
You're left with nothingDon't come running right back to us
Don't come running right back to us
Where did you go, where did you go
It's funny how things change so quickly you forgetWhere did you go we thought we knew you
So much for that anymore
Don't come running back to us when
You're left with nothingWhere did you go we thought we knew you
So much for that anymore
Where did you go, where did you go
