

Problems

Nivea

I won't take no lies, hanging out all night
The gig is up, enough, it's enough
You're wrong, dead wrong, won't take no more
'Cause I see your game and dumb's not my namePack your bags, call you a cab
No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a songYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themGot love for you but I can't stand you
I page you, you won't call, what's a 2-way for
Strike one, strike two, strike three, no more me
'Cause I see the game and dumb's not my namePack your bags, call you a cab
No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a songYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themWe can do this anyway that
You want 'cause I don't care
It's no problem and I'm not the oneWe can do this anyway that
You want 'cause I don't care
It's no problem and I'm not the onePack your bags, call you a cab
No more laughs 'cause I'm not the one
That you're gonna play on
Move along, sing a songYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themIt's plain to see, you can't have me
'Cause you gon' be a playa for life

It's plain to see, you can't have me
'Cause you gon' be a playa for lifeIt's plain to see, you can't have me
'Cause you gon' be a playa for life
It's plain to see, you can't have me
'Cause you gon' be a playa for lifeYou give me problems, problems
Too many problems
Don't want no problems, problems
No time to solve themYou give me problems, problems
Too many problems
