

The Same

Lucy Wainwright Roche

Late night
It's your fire to flame
Wanting by any a name
To be her
Be understood
I'd say it
Don't do any good All of the times I've told you, I've been the same
All of the times I've told you, I've been the same But still
Nashville will do
We all need
Someplace to run to All of the times I've loved you, I've been the same
All of the times I loved you, I've been the same What's more
The red door is closed
You don't see
But baby, everyone knows All of the times I've hurt you, I've been the same
All of the times I've hurt you, I've been the same
All of the times I've told you, I've been the same
All of the times I loved you, I've been the same
