

You Make It Look easy

The Flatlanders

Shattered and scattered to the four wild winds
My angels and my devils and a few of my friends
You got 'em all to dancin' on the head of a pin
You make it look easy, you make it look easy You were starrin' in a drama, I was starin' at a dream
We met out in the alley or so it seems
I wish I knew the difference between a scam and a scheme
You make it look easy, you make it look easy We stumbled into somethin', it was over our head
We came crawlin' back when they left us for dead
You should've seen that look on your face when I said
You make it look easy, you make it look easy Hell bent for leather, spinnin' outta control
Into a whirlin' world with no soul
I'm feelin' kinda dizzy but you're still on a roll
You make it look easy, you make it look easy We stumbled into somethin', it was over our heads
We came crawlin' back when they left us for dead
You should've seen that look on your face when I said
You make it look easy, you make it look easy
You make it look easy, you make it look easy You can step to the stage in your high stylin' hat
But the spot light follows that old alley cat
How do you hold your head up after somethin' like that?
You make it look easy, you make it look easy
You make it look easy, you make it look easy
