

What Angry Blue?

Seven Mary Three

I know how the good wind blows and it gives me my time
Don't let them drag your hatred off the line
I know how the anger goes so I bury mine
You know they had me working overtime
I want no part of your black heart causes
Empty speeches, broken promise
I know how the anger flows so I carried time
Don't let them drag the needle through your dime
I know how the hatred goes so I buried mine
Lucky seven, Lucky rolls the dice, yeah that's right
I want no part of your black heart causes
All this preaching and still no progress
What angry blue has got into you?
