

# Drift Away

## Caroline's Spine

They said you can change the way things are  
You came here from very far away  
Can you change me too?  
Yeah you, you do what you have to do  
Can you make my sky turn blue again?(chorus)  
So throw an arm around me and we'll drift away  
And enjoy the impact  
So many things I'd like to say before the point of contact  
So throw an arm around me and we'll drift away  
Hey you, do you know what you've done  
Now they've come and gone  
I guess you thought you could break through  
Hey you, well do what you have to do  
Can you make my sky turn blue again?(repeat chorus)
