Be With You

Atomic Kitten

You and I, two of a kind
A meeting of minds
The time of our lives
The perfect night out of sight
(The perfect night)
As I look in your eyes
(Look in your eyes)
Never felt so right
I really want tonight to last forever
I really want to be with you
I really want tonight to last forever
I really want to be with you
Night and day
(Night and day)
Come what may
There's always change
Nothing stays the same
(Nothing stays the same)
Who can say
(Who can say)
What would come my way
(Come my way)
Leave it all to fate
Let tomorrow wait
I really want tonight to last forever
I really want to be with you
(Yea yea)
I really want tonight to last forever
I really want to be with you
(Tonight, yea)
I really want tonight to last forever
(Tonight yea)
I really want to be with you
Let the music play on top of life tonight
You know I really wanna be with you
(Really wanna be with you)
You know I really wanna be with you
(Really wanna be with you)
The perfect night

(Perfect night)
Out of sight
(Ooh)
As I look in your eyes
(Look in your eyes)
Never felt so right
Ooh yea
I really want tonight to last forever
I really want to be with you
(Yea yea)
I really want tonight to last forever
I really want to be with you
(Tonight, yea)
I really want tonight to last forever
(Tonight yea)
I really want to be with you
(Tonight, yea)
I really want tonight to last forever
(Tonight yea)
I really want to be with you
You know I really wanna be with you
(Aah)
You know I really wanna be with you
(Aah)
You know I really wanna be with you
(Aah)
You know I really wanna be with you
(Aah)
