

Take A Trip

[Nick Galea](#)

Let me take you on a trip now, far away
Where there's lots of my love, show you the way
To a place where I've always dreamed we can be, yeah
Where our souls, where our souls, our souls can be free, yeah
Let me take you on a trip now, far away
Where there's lots of my love, show you the way

Now, love
Don't you give up now
Don't you give up now
Never stop and never give it and never
Oh no no no, nooooooooooooo

Let me take you on a trip now, far away
Where there's lots of my love, show you the way
To a place where I've always dreamed we can be, yeah
Where our souls, where our souls, our souls can be free

Now, love
Don't you give up now
Don't you give up now
Never stop and never give it and never
Oh no no no, nooooooooooooo
