

Once You've Had the Best

[George Jones](#)

I'm so glad to have you back within these arms of mine
I can finally close my eyes and get some rest
Never once did I think of finding someone new
'Cause there's nothing better once you've had the best
You're the very thing they sing about in love songs
And one mistake don't mean you've failed the test
And as you lay beside me softly sleeping, this I know
There's nothing better once you've had the best
Within your arms I've had the best and I think the world should
know
I don't care what you've said or done I'll always love you so
You've got more love in your little finger than all the rest
And there's nothing better once you've had the best
No, there's nothing better once you've had the best
