## Apollo 440

I shall not cease from mental fight  
No politics will see me right  
No man in space; no space in man  
A God shaped hole in a God shaped landAstral america  
La la la l-americaUse up your body; sister sublimate  
Burnt up my brain to an empire state  
Liberate me me me domine  
Blow me away like j.f.k.Astral america  
La la la l-america
