Chance of a Lifetime

Scott Michael Bennett

Chance of A Lifetime
Sometimes the heart can lead you where few have ever been
Can take you to the limit time and time again
Something moves the spirit like something moves the wind
I felt it and I followed, now the roads about to end

This is the chance of a lifetime, can't let it slip away
This is the moment I've dreamed of, it all comes down today
Whatever it takes I'm willing to give
I know I was born to live for the chance, chance of a lifetime
Born to live for the chance, for the chance of a lifetime

We find our own direction, we make our own mistakes
Some take the road that's easy, some play for higher stake
It's been a long time coming but it's been worth the wait
Cause now I know I'm ready to touch the hand of fate

This is the chance of a lifetime, can't let it slip away
This is the moment I've dreamed of, it all comes down today
Whatever it takes I'm willing to give
I know I was born to live for the chance, chance of a lifetime

This is the chance of a lifetime, can't let it slip away
This is the moment I've dreamed of, it all comes down today
Whatever it takes I'm willing to give
I know I was born to live for the chance, for the chance
For the chance, for the chance of a lifetime

For the chance, for the chance
Chance of a lifetime
It's the chance, it's the chance of a lifetime
