

Are You My Love

Kelley Stoltz

Are you my love
Are you my love
Are you the one that I've been thinking of
Are you my love I've been holding the door
I've been holding the door
Are you the one that I've been waiting for
I've been holding the door The telephone rung
Sounds like a hurricane
How my lips stung
When they said your name
Tell me baby true Do you have the key
Do you have the key
To take me to your house of harmony
Do you have the key Is it in the stars
Is it in the stars
Do we have the blessing of Venus and Mars
Is it in the stars Lightning struck
Electricity rained
How my lips stung
From whispering your name
Tell me baby true Born in September
You know I got it bad
Try to remember
The next time I make you sad
I'd walk for miles
For one suggestion
But over time I developed questions Are you my love
Are you my love
Are you the one that I've been thinking of
Are you my love Are you my love
Are you my love
Are you the one that I've been dreaming of
Are you my love I've been holding the door
I've been holding the door
Are you the one that I've been waiting for
Cause I've been holding the door Are you my love
Are you my love
Are you the one that I've been dreaming of
Are you my love
