

Life Within A Life

Jesca Hoop

They come and they go, my woes and my joy
I know getting attached to that temporal toil is ignorant
They ebb and they flo, my frowns and my smiles
I know getting attached to that miracle mile is ignorant
State of bliss, tell me are you happiness
Something's gone terrible wrong if you are other than this
Turn out the sun, all of your golden days are gone
Theres a world better than this one is your favorite song
They observe and then note the flux in your power
Your efficiency in spinning your hour to hour is significant
Deserve and then don't your bouquet of flowers
The universal candy is bitter, sweet, salty and sour
Get used to it
State of bliss, tell me are you happiness
Something's gone terribly wrong if you are other than this
Go get your gun, no need in leaving the safety on
Im going higher one day is your favorite song
Yeah, they come sure as they go
Yeah, they come sure as they go
So they come sure as they go
Yes, they come sure as they go
Sure as they go
Life within a life has ended and begun
Again my tune is sung
We sail into the sun, light and brightest night
Dark and dismal day has ended and begun
In out and in of one, we sail into the sun
Life within a life has ended and begun
In out and in of one
We sail into the sun
Life within a life has ended and begun
In out and in of one
We sail into the sun, light and brightest night
Dark and dismal day has ended and begun
In out and in of one, we sail into the sun
