

# There's a Reason

## Slick Shoes

I know we can talk about it  
I know we can live without it  
What makes you feel this way?  
I wish I could say I know we can get through it  
What will it take to make it? Does it seem that hard? Why do I feel this way?  
It happens everyday  
When will it go away?  
This sickness killing me When will it be okay? I know we can get through it  
What will it take to make it? Does it seem that hard? In the back of my mind, it gets me every time  
In the back of my mind, it gets me every time
