

Before You Go

Common Kings

Want you to love me before you leave
Let me hold you before you go
Just remember the times we shared
And remember you touched my soul
We donâ€™t know where life will take us
Iâ€™ll hold my breath and be patient
So wonâ€™t you love me before you leave

Every moment with you feeling perfect for me
And baby youâ€™re tellinâ€™ me that we could never be
And now Iâ€™m like, Cool it down, cool it down, wait a minute
You say you have to go, but yesterday your heart was in it, my love
Oh, oh, oh â€˜ let me say what I need to say

Want you to love me before you leave
Let me hold you before you go
Just remember the times we shared
And remember you touched my soul
We donâ€™t know where life will take us
Iâ€™ll hold my breath and be patient
So wonâ€™t you love me before you leave
And let me hold you before you go, oh, woah, woah
Let me hold you before you go, oh, woah, woah

Donâ€™t forget what we got, no it canâ€™t be replaced
One moment weâ€™re holding hands, then you leave without a trace
Itâ€™s got me like, Cool it down, cool it down, wait a minute
You say you have to go, but yesterday your heart was in it, my love
Oh, oh, oh â€˜ let me say what I need to say

Want you to love me before you leave
Let me hold you before you go
Just remember the times we shared
And remember you touched my soul
We donâ€™t know where life will take us
Iâ€™ll hold my breath and be patient
So wonâ€™t you love me before you leave
And let me hold you before you go, oh, woah, woah
Let me hold you before you go, oh, woah, woah

You know that I love you, as hard as I try
Iâ€™ll never get over your baby blue eyes
You know that I love you, as hard as I try
Iâ€™ll never get over your baby blue eyes
Cool it down, cool it down, wait a minute
You say you have to go, but yesterday your heart was in it, my love
Oh, oh, oh â€˜ let me say what I need to say

Want you to love me before you leave
Let me hold you before you go
Just remember the times we shared
And remember you touched my soul
We donâ€™t know where life will take us
Iâ€™ll hold my breath and be patient
So wonâ€™t you love me before you leave
And let me hold you before you go, oh, woah, woah
Let me hold you before you go, oh, woah, woah

Let me hold you before you go
