In The Darkness

Girls Under Glass

In the darkness, I keep you warm
In the coldest winter, I take you in my arms
I feel your warm skin and I smell your breath
Before the dawn is coming up, I love you to deathIn the darkness, I'm with you
Hold me now, hold me now
In the darkness, our world is painted blue
In deep dark colors, I love youHold me now, I'm with you
Hold me now, I'm covered in silenceI watch the stars, you turn out the light
I keep your warm hand and we enjoy our night
I wish the time we spend will last forever
And the time that's left, we will be togetherIn the darkness, I'm with you
Hold me now, hold me now
In the darkness, our world is painted blue
In deep dark colors, I love youIn the darkness, I dream of you
Hold me now, hold me now
In my darkest dreams, covered in blue
Praise my dreams where I love youHold me now I'm with you
Hold me now I'm covered in silence
