

# Out My Way

## House Of Heroes

When did everyone I leaned on get out dated?  
Where are all the great mysteries and the legends?  
If they could make me a carbon copy would you hate it?  
Or would you even know they offed me?  
Obliterated?  
If you've got shots you wanna take,  
Better hope it buries me, hey ey ey.  
If I go out then so it be,  
You know I'm going out my way.  
If you add up all the risks not taken they're all misses,  
Think I'd rather live with the knock down drag outs and the stitches,  
Because you'll never find out till your bodies been broken on the canvas,  
If you belong with the ghosts and the has beens,  
  
Or if you live on like a little piece of greatness,  
If you've got shots you wanna take,  
Better hope it buries me, hey ey ey.  
If I go out then so it be,  
You know I'm going out my way.  
It took a whole lot of blood and sweat to get what I got,  
It took a whole lot of cold hard want to get what I got,  
It took a whole lot of nights like these to get what I got,  
Yeah it took cold hard want to get what I got yeah!  
If you've got shots you wanna take,  
Better hope it buries me, hey ey ey.  
If I go out then so it be,  
You know I'm going out my way.
