Shuck & Jive

Superdrag

The fascination, disconnection
Far-out disengage
Everything is meaningless
Let's atom bomb the stageDestination, violation
Far-out disrespect
Liberation, transformation
What did you expect?What did you expect?
Mr. Candidate Elect
Was it everything you planned
By a palm tree in the sand?The information from the station
Lulled you off to sleep
Everything is heavy
And the figures are too steepDestination, laceration
You'll survive the wreck
Institutionalization
What did you expect?What did you expect?
I'm afraid you're incorrect
And you're breaking up the band
By a palm tree in the sandComing down in recovery
We fail to understand
Wait around for discovery
With merchandising plansSo take the dive
We are Shuck and Jive
