

# Tear It Down

## D.R.I.

Fighting this society, there's only one way to win  
We must stick together through all thick and thin  
Cross over the line of your stubborn, closed mind  
Don't be surprised at what you might find Things you thought wrong may have always been right  
You'll probably find fault in your reasons to fight  
You really don't differ from what I can see  
Ain't it time to unite or is it just me? Just as we watch them build this empire  
So they shall watch us tear it down  
If not with our words  
Then with the power of our sound Fighting this society, there's only one way to win  
We must stick together through all thick and thin  
Cross over the line of your stubborn, closed mind  
Don't be surprised at what you might find We are the future, so let's get things straight  
Combine our forces before it's too late  
Fighting ourselves can't go on any longer  
We must fight together if we want to grow stronger We can tear it down  
We can tear it down  
We must tear it down  
We will tear it down Fighting this society, there's only one way to win  
We must stick together through all thick and thin  
Cross over the line of your stubborn, closed mind  
Don't be surprised at what you might find Things you thought wrong may have always been right  
You'll probably find fault in your reasons to fight  
You really don't differ from what I can see  
Ain't it time to unite or is it just me? Just as we watch them build this empire  
So they shall watch us tear it down  
If not with our words  
Then with the power of our sound Fighting this society, there's only one way to win  
We must stick together through all thick and thin  
Cross over the line of your stubborn, closed mind  
Don't be surprised at what you might find We are the future, so let's get things straight  
Combine our forces before it's too late  
Fighting ourselves can't go on any longer  
We must fight together if we want to grow stronger We can tear it down  
We can tear it down  
We must tear it down  
We will tear it down We can tear it down  
We can tear it down  
We must tear it down

We will tear it down
