Death Defy

Motor Ace

Starting to get my head in your space
Starting to lose track of the weekdays
Starting to cook my brain in five ways
I'm trying to be coolStarting to lose my inhibitions
Starting to make some bad decisions
I'm listening to all your crap opinions
I'm trying to be coolDon't take me over
Just take me there
Like I plannedI've gone as far as I could go
And now the feeling's starting to take hold
But I'll death defy to make you cry
And find out what you know
Would you please death defy with me tooStarting to tune in to your station
Starting to lose my obligation
I'm talking in tongues and celebration
Trying to be coolStarting to get my head in your space
Starting to lose track of the weekdays
Starting to cook my brain in five ways
I'm trying to be cool
