Evacuation

Pearl Jam

The sirens scream wanton attention
Time to take heed and change directions
Time to take stock and make omissionsEvacuation
EvacuationTime to take leave all formal functions
Time to plant seeds of reconstruction
No time this time to feign reluctanceIt's like you're waiting for a diamond shore to wash your way
Bets put aside, you're evil, let's crawl into your face
A vision, vague or not, raising a frightful wake-you-upTime for evacuation
Evacuation
Evacuation
Evacuation
Evacuation
Evacuation
EvacuationThere was a solemn man who watched his twilight disappear in the sand
Altered by a fallen eagle, a warning sign
He sensed worry could be strength, with a plan said time forEvacuation
Evacuation
Evacuation
EvacuationEvacuation, evacuation
Evacuation, evacuation
Evacuation, evacuation
Evacuation, evacuation
Evacuation, evacuation
Evacuation, evacuation
