Last Night

Souls of Mischief

[som]
Last night![a-plus]
Was incredible, unforgetable
Seen some ass mc's
Had to let'em knowLast night![tajai]
Had put my thang down
Got my thang on
Did my thug thang
It wasn't a thang wrongLast night![opio]
I thought it was just my mic level
I can't hear myself & plus turn up the echoLast night![phesto dee]
I took a five hour plane flight
Spittin' at my homegirl via satelliteLast night![a-plus]
Idea was top the secret
And you wouldn't belive it unless you peeped it
She was off the chain, all-terrain
All insane alcohol stalled her brain
Last night I caught the right weed
Had my body slow-mo but thoughts at light speed (last night!)
Was a long one I was on one, a strong one
Smoke it 'til it's all doneLast night![opio]
We out we out we out
Forty miles over the speed limit
On target like a bullet to the knees
From the swat team when i'm
Shootin' these in 'em
Trigger kamikaze but two shots are hidden then
Step into the station (pass a-plea the venom)
So we can take a sip and let the poison get in 'em
Ink off the mic like a vortex without a bitch or a lex
I get more affection
Payin' no attention cause I learned my lesson
Cold hearted bitterness so I never sweat them (last night!)
Starstruck the hollywood hoes in action
Master your high watch out they backstabbin'Last night![phesto dee]
Chillin' where the city lights flash bright
Burning rubber in a riddle livin' in the fast life
That's right
I saw the last of my id's

One too many a dem long island ice teas
Act right
You thought you was the life of the party
Feelin' light hearted off the lime and bacardi (last night!)
I seen your girl at a red light
Too conditioned for your highness but we did it all nightLast night![tajai]
Last night I spend my whole night out
Met some hoes outta fest for low riders
Mind hunters, lip gloss shine & hypnotizin' minor men
And like a fool I invite 'em into my ride
When we was already high but with tequila sunrises
Jack & mai tais
It was all over
Wished I stayed sober cause I don't know what
Happened and niggas keep on laughing (last night!)
Oh that's right
You was poppin' at the cutie with the big backsideLast night![a-plus]
Yeah I was watchin' movies on my sofa
Knowin' susie'd soon be comin' overLast night![phesto dee]
I cracked a cold one
Then I smoked some but lost a whole bunchLast night![opio]
We lit up the premium blend
Hit it again and again and make the world spinLast night![phesto dee]
I rolled across the golden gate bridge
Headed for the o with pep and jay-bizLast night![opio]
I got paid before and laid after
(up in?) the mic and broke bread at the tabernacleLast night![a-plus]
I'm sleepin' from drinkin' too early in the evenin'
And hennessy had me hurlin' and heavin'Last night![tajai]
Last night I broke on through to that side
Party til my body capsizedLast night![phesto dee]
I saw the (locs plus it's off the tushes?)
Lookin' voluptuous in capri's and petal pushers
Hair brushes had us watchin' for the black and whites
Evadin' the sobriety checks and spotlightsLast night![a-plus]
I smoked a bomb sack facial
Then I got a call from this girl I hate bro (what?)
She said I'm comin' by don't think that I'm a h-o
I'm thinkin' how you know I was on the eighth floor?Last night![tajai]
Last night was scorchin', blazin'
An overload of endorphins
This motorola is just torchin'
Act like I be actin' brazen
A'k the ladies
I may push it but don't force itLast night![opio]

This way configurate when we skate in a caravan
Kickin' up dust and disappear in a sand storm
Mash on the gas aim direct and escape
To the next experience we do it heavyweightLat night![a-plus]
Got pulled over by the po-pers
Wasn't sober they let me go but they took all of my dosiaLast night![phesto dee]
We was compact deep in the backseat
Goin' tone deaf from distorted fifteensLast night![opio]
Check it out they was movin' too slow
I was in the fast lane with the cruise controlLast night![tajai]
If you missed us catch us next time we ride
'cause you know we do it rightLast night!
