Something Is Me

Paul Westerberg

You've gotta get something off of your chest
Well, something is me and let me guess
Something always changes eventuallyWell, something is me
(Something is me)
Now something is me
(Something is me)Through the top of the porch, through the top of the wall
Something went wrong, my name is Paul
Something always happens eventuallyWell, something is me
(Something is me)
Something is me
(Something is me)
Something something something something
Something something something somethingEventually something is me
(Something is me)
Woe is me
(Something is me)
Something something something something
Something something something somethingWhose suicide are you on?
Take a left turn, you hop on my lawn
Something's got to grow eventuallyI know something is me
(Something is me)
Something is me
(Something is me)
Something something something something
Something something something somethingGotta take something to make you feel good
Something ain't me but I wish it could
Finally find something to believeSomething is me
(Something is me)
Something is me
(Something is me)
Something is me
(Something is me)
