We Got Love (that's Enough)

Ruben Studdard

These days, these times are full of trouble
So much fear and uncertainty
But when I look at where we are
Everything don't seem so hard

We've been down, we've been out
Walking on this winding road
And we've seen the darkest nights
But we made it through the storms
We can hold on to the things
That made us great before

'Cause we got love and that's enough, oh, oh

Do all our dreams still have a chance
(Oh)
Is it wrong for me to ask?
Will we see our children dance
And will we see their children laugh
I believe we will

We've been down, we've been out
Walking on this winding road
And we've seen the darkest nights
But we made it through the storms
We can hold on to the things
That made us great before

'Cause we got love and that's enough

I'm big enough to say
Sometimes I struggle to believe
And if I fall I will fall
I have to fall down on my knees

'Cause we've been down, we've been out
Walking on this winding road
And we've seen the darkest nights
But we made it through the storms
We can hold on to the things

That made us great before

'Cause we got love and that's enough, oh
We got love and that's enough
That's enough, that's enough, that's enough

These days, these times are full of trouble
So much fear and uncertainty
