Silver, Blue & Gold

Bad Company

In the beginning
I believed every word that you said
Now that you're gone
My world is in shreds
Oh, you loved me and left me
You took all the things that I needed so bad
I'm standin' here wondering
Where is the love that I had
Give me silver, blue and gold
The color of the sky, I'm told
My rainbow is overdue
In the beginning
There was something of love that was mine
Now that it's gone
Whoa, I'm cryin'
Oh, the time that it takes for a love to grow cold
Is a wonder to me
I'm walkin' around with my head hangin' down
Tell me where is she
Give me silver, blue and gold
The color of the sky, I'm told
My rainbow is overdue
Oh, don't forsake me 'cause I love you
Don't forsake me 'cause I love you
Give me silver, blue and gold
The color of the sky, I'm told
My rainbow is overdue
Give me silver, blue and gold
The color of the sky, I'm told
My rainbow is overdue
Give me silver, blue and gold
The color of the sky, I'm told
My rainbow is overdue
Oh, don't forsake me 'cause I love you
Don't forsake me 'cause I love you
