Hellrider (live)

Judas Priest

Here they come
These gods of steel
Megatron
Devouring whatÂ’s concealed

Speed of death
Crossfired they stare
Final breath
From vaporizing glares

Raised to man opressed
Sign of persecution

Hellrider
Roars on through the night
Hellrider
Raised for the fight

All incensed to overthrow
Strong defence
With armaments they grow
By this quest
Their fates renowned
Put to rest
Abominations crown

Time to ram it down
Judgement for the tyrant

Hellrider
Roars through the night
Hellrider
Raised for the fight

Fight undying and eternal
Wheels bring death and
Pain infernal
Honour bound in strength repleated
To no end theyÂ’re undefeated

Hellrider, hellrider
You fought their battle for them

Hell rider, hellrider
You bought them through their dispair

Hellrider, hellrider
Your tempered steel relinquished

Hellrider, hellrider
You slaught them all extinguished

Wrath of doom
In killing fields
They consume
For valiants never yield

Triumph to the gods
Vanquished of enslavers

Hellrider
Breaking their will
Hellrider
In for the kill

Hellrider, hellrider
You fought their battle for them
Hellrider, hellrider
You brought them through it all
Hellrider
