

Going for Gold

The Tornados

I never said never ever
You took the words right out of my mouth
Is the sea your sunshine have we been told
The sea is you lifeline you're going for gold
You took the words right out of my mouth
Time and time and time again
I look to me my only friend
Time and time and time again
Are you here for my pleasure
Or are you going for gold
Are you going for gold I never said never ever
You took the shine right out of my smile
Is the moon your nighttime have you been sold
The moon is your lifeline you're going for gold
You took the shine right out of my smile While my mind is blind again
I look to me my only friend
Time and time and time again
Are you here for my pleasure
Or are you going for gold
Are you going for gold Time and time and time again
I look to me my only friend
Time and time and time again
Are you going for gold
Are you going for gold
Are you going for gold
