

Seasons Fly

Darin

I still see you beautiful as you were
Like the winds you blow me away
To the dreams
That's where i meet you
I never wanna wake upWish we could stay here
In this moment
Casue i miss youWatching the seasons fly
Going around in cricles
Why,Why you left me all alone
Thinking why you can't come home
The nights are killing me
Without you baby i can't sleep
You took my heart out , kept it well
Now your'e goneFor every step i take
The road just seems longer
Like in a box i'm not getting out
Wanna feel stronger
But the room is getting smaller
Cause all i think about is herWatching the seasons fly
Going around in cricles
Why,Why you left me all alone
Thinking why you can't come home
The nights are killing me
Without you baby i can't sleep
You took my heart out , kept it well
Now your'e gone(your'e gone)Watching the seasons fly
Going around i circles
Why,Why you left me all alone
Thinking why you can't come home
Thw nights are killing me
Without you baby i can't sleep
You took my heart out, kept it well
Now your'e gone(your'e gone)
