

# Keep Tryin'

## Groove Theory

You've been missin'  
Out on all the chances you've been given  
Is it something within  
Holding you back instead of livin'Your day is coming though it seems far  
Things will be clear when you love who you are  
Nothin' can stop you as long as you listen to your heartLift your head to the sky and keep tryin'  
Believe in you and it will take you higher  
Lift your head to the sky and keep tryin'  
Believe in you and it will take you higherYou have sorrows  
Everywhere you turn they seem to follow  
If you let go  
Happiness will come to you tomorrowYour day is coming though it seems far  
Things will be clear when you love who you are  
Nothin' can stop you as long as you listen to your heartLift your head to the sky and keep tryin'  
Believe in you and it will take you higher  
Lift your head to the sky and keep tryin'  
Believe in you and it will take you higherYou can make if you try, you can make itLift your head to the sky and  
keep tryin'  
Believe in you and it will take you higher  
Lift your head to the sky and keep tryin'  
Believe in you and it will take you higherLift your head to the sky and keep tryin'  
Believe in you and it will take you higher  
Lift your head to the sky and keep tryin'  
Believe in you and it will take you higherLift your head to the sky and keep tryin'  
Believe in you and it will take you higher  
Lift your head to the sky and keep tryin'  
Believe in you and it will take you higher
