Look At the Fool

Tim Buckley

Each and every day, every little way
I've been lovin' you
I can't live without your lovin' at night
Makes it hard to say it's wrong
When I know it's rightEven though the years won't be kind
I love you more than I care about myself
I love ya, hate ya for what you're doin' to my health
I love ya, hate ya for all the love ya make me feel
I love ya, darlin' 'cause ya know I can't leaveBut when you're gone
I'm little boy lost in the storm
With the wolves and flames all around
I talk to myself and pray to the rain
That this lonely curse won't drive me insaneI run into the sea but the sea only sighs
Look at the fool that love brings me
Look at the fool that love brings me
Look at the fool that love brings meEach and every day, every little way
I've been lovin' you
I can't live without your lovin' me at night
Makes it hard to say it's wrong
When I know it's rightEven though the years won't be kind
I love you more than I care about myself
I love ya, hate ya for what you're doin' to my health
I love ya, hate ya for all the love ya make me feel
I love ya, darlin' 'cause ya know I just can't leaveLook at the fool that love brings me
Look at the fool that love brings me
Look at the fool that love brings me
