

# Live While We're Young

## Johnnyswim

Save a place at the table  
For your daughter and son  
We'll be on that highway  
Fading quick like the sun Didn't you stay up late waiting  
Oh we've only begun  
Yeah we've only begun Make no mistake  
We'll live while we're young  
We'll chase down the sun Hands off the brake  
We can die when we're done  
Let's live while we're young  
Live while we're young Ooh Got my hand on my Bible  
Hold it firm like a gun  
While you pray for revival,  
I'm already livin in one I won't pass up on the danger  
I'd miss out on the fun  
Won't miss out on the fun Make no mistake  
We'll live while we're young  
We'll chase down the sun Hands off the brake  
We can die when we're done  
Let's live while we're young  
Live while we're young You can barricade these walls and seek surrender  
We'll taunt enough to turn a raging sea  
But the only way we find to quench these embers  
Is killin' me  
It's killin' me  
It's killin' me Oh let the stages burn  
And the tears turn into scowls  
And if the glory of the past is all I ever see  
Oh still the only way you'll find to quench these embers  
Is killin' me  
Killin' me  
Killin' me Make no mistake  
We'll live while we're young  
We'll chase down the sun Hands off the brake  
We can die when we're done  
Let's live while we're young  
Live while we're young We can barricade these walls and seek surrender  
Taunt enough to turn a raging sea  
The only way you'll find to quench these embers

It's killin" me
