Getaway

Latch Key Kid

Gotta make my getaway
Gotta make it today
Gonna leave it all behind
Gonna make my escape

Way up high where the eagle flies
In the sky, I will rise
Over canyon and countryside
I will fly, I will fly

Late at night when the stars are bright
I will shine, I will shine
Sail away into outer space
In my mind, in my mind

On the back of a shooting star
I will ride, I will ride
To a future not very far
And so bright, and so bright

Thereâ€™s a feeling I canâ€™t escape
I canâ€™t hide it, whatâ€™s inside
Itâ€™s leading me to another place
And a time where itâ€™s all right

Working day is a grind on me
Nine to five, nine to five
These walls are closing in on me
Getting buried alive

Gonna run down to the sea
And Iâ€™ll dive, and Iâ€™ll dive
Let the waves wash over me
Iâ€™m alive, so alive

Standing out in the pouring rain
I know Iâ€™m not insane
I donâ€™t wanna feel no pain
I just let it wash away

Gotta make my getaway
Gotta make it today
Gonna leave it all behind
Gonna make my escape today.
