

# 10,000 Years

## High on Fire

10,000 year or more in jet black meditation

Sonic Tempress hear no more and hand me my salvationWalkin' through the piles of life, ignore all regulation

Now I stand here, hands are sore but that's my motivationThe [Incomprehensible] vision never died

The earthling walked in [Incomprehensible]10,000 years or more in jet black meditation

Now I stand here and hands are sore but that's my reputation
