

More Life In A Tramps Vest

Stereophonics

I get camping eyes in the final hour
last minute shoppers picking califlour
the fuss they make you'd swear they were buying a car
They always moan, moan it's not so cheap
cheaper still cheaper still down the street
I lose my rag and tell them take your bag and shop down there

Closing down closing down another road
one way system steals the show
mac the knife swigs a can and sings the day away

CHORUS

There's more life more life more life
in a tramps vest
There's more life more life more life
in a tramps vest

A flower man sits down in the street
surrounded by stock he brought back last week
bring back the ladies wearing lipstick on their teeth
Make up we make up a crapy jokes
sit back relax and have a smoke
mac the knife swigs a can and sings the day away

CHORUS - twice

I get camping eyes in the final hour
last minute shoppers picking califlour
mac the knife swigs a can and sings the day away

CHORUS - twice
