Bubble Wrap

Woven

Last night brought me back to
The day we met
Skinny bodies swaying
To the music

Music's getting so loud
I can't take my eyes off you
For the first time
It wasn't about

Anything but your glow
Yes it's getting so loud
I can't take my eyes off you
It's your smile

Its the way you love
Its the way you look
When we come
For the first time

It wasn't about
Anything but your glow
Yes it's getting so loud
I can't take my eyes off you

It's your smile
Its the way you love
Its the way you look
When we come

Its cause you got this
Hole in the middle
So hard to appreciate it all
Its cause you got this

Hole in the middle
For granted when we crumble down
