Learn to Hate

Silverchair

I wanted to be friends with her too
So my relationship could be the same as yours
I hated everyone just like you
Hatin' you should be introduced as our new lawTake the time, to learn to hate
Come and join the mass debate
Take the time, take the time
It's all uphill, you gotta climbYou betrayed all the trust I gave you
Now I need therapy to hate a little more
You cannot help me to forgive you
The drugs have given you all kinds of different soresOh, oh
I hated everyone just like you
Hatin' you should be introduced
As our new lawTake the time, to learn to hate
Come and join the mass debate
Take the time, take the time
It's all uphill, you gotta climbAs you pump drugs into your bloodstream
I sit observin' in disgust
Hopin' that you will finally come clean
So I don't have to use this gunTake the time to learn to hate
Come and join the mass debate
Take the time, take the time
It's all up, it's all up, it's all uphill
