# Heart Like Stone

## Greyson Chance

Late at night I start to think about the things I did wrong
Late at night I start to think about the things I could've done
To save us from him
To save us from her
To save us from the world
Late at night my tears start to melt my heart into gold
Late at night the silver lining turns my heart into stone
To save us from him
To save us from her
To save us from
Suddenly my heart starts to feel, yeah
My heart starts to feel (x2)
Like stone
All around is silver and gold
My heart never heals
My heart only feels like stone (Ooooh like stone)
Late at night when I'm at parties my gloom fills the room
Late at night when I'm dancing with other girls
I pretend it's you
To save me from hurt
To save me from hurt
To save me from
Suddenly my heart starts to feel, yeah
My heart starts to feel (x2)
Like stone
All around is silver and gold
But my heart never heals
My heart only feels like stone

Suddenly my heart starts to feel, yeah
My heart starts to feel (x2)
Like stone
All around is silver and gold
But my heart never heals
My heart only feels like stone (Ooooh like stone)
I tried my hardest
I tried my best
But you just don't seem satisfied
And now I'm here alone tonight

When I think of you
I cry
Suddenly my heart starts to feel, yeah
My heart starts to feel (x2)
Like stone
All around is silver and gold
But my heart never heals
My heart only feels like stone
(Suddenly) My heart starts to feel, yeah
My heart starts to feel (x2)
Like stone
All around me
Silver and silver and gold
My heart never heals
My heart only feels like stone
Late at night when I'm all alone
I think of..... you.
